

Description of the habilitation procedure and the inaugural procedure in the field of Design

HI2 Definition of the field of habilitation procedure and inauguration procedure

HI 2.1.1.

The Academy of Fine Arts has a field of habilitation procedure and inauguration procedure defined by name and content, it guarantees that its content definition is as close as possible to the field of study to which it is assigned.

Habilitation procedure in the field of Design

Inauguračné konanie v odbore Dizajn

HI 2.1.2.

The department of habilitation procedure and inauguration procedure is assigned to the study department 39 Art.

Description of study field 39 Art:

<https://www.portalvs.sk/sk/studijne-odbory/zobrazit/umenie>

HI 2.1.3

The content of the field of habilitation procedure and inaugural procedure is based on the content of the field of study 39 Art, from which the field of design is chosen for this case. Design, together with visual arts, restoration and architecture, are integrated into the doctoral degree program Visual Arts, in which the trainers from the field of design carry out their pedagogical activities. Within the framework of the doctoral level of study, artistic research is especially preferred, which is interdisciplinary focused, consists in the intersections between science and art.

Characteristics of the graduate and his/her competences within the third level of the study field Art:

The graduate has knowledge that allows him to define and theoretically justify new approaches and perspectives on creation or interpretation or restoration. Can apply connections between artistic creation and scientific disciplines. He has extensive professional knowledge from several areas of the field of study, which serve him as a basis for carrying out research, development and creating new knowledge in the field of art.

HI3 Level of education in the field of habilitation procedure and inauguration procedure

HI 3.1.1.

The Academy of Fine Arts aligned its study programs with SAAVŠ standards in order to obtain authorization to create, implement and edit third-level study programs in the field of study in Art. The methods of creating, implementing, and modifying study programs of the third degree are elaborated in the internal regulation on the quality of education at VŠVU.

HI 3.2.1.

The Academy of Fine Arts conducts two study programs in the third degree of study in the field of study Art. These are Fine Arts (internal form), which includes the fields of visual arts, design, architecture and restoration, and Fine Arts (external form), which includes the fields of visual arts, architecture, design and restoration. The fields of art are integrated in the given study programs: visual art, architecture, design and restoration.

In the master's degree, four study programs are accredited under the field of study Art:

1. Visual art
2. Design
3. Architectural creation
4. Restoration

HI 4.2.1.

AFAD has no faculties. It has one Art Council of AFAD.

HI 4.2.2.

The Art Council of AFAD is composed of internal experts from the academic environment of AFAD who hold the titles of docent and professor and at the same time hold the positions of docents and professors. External experts are important experts from other universities from the Slovak or Czech environment, they are internationally established experts who work at other universities as docents or professors. All members of the Art Council of AFAD are capable of competently assessing habilitation proceedings or inaugural proceedings.

In the Rules of Procedure of the Art Council of AFAD, in article 1 par. 1 to 8 defines the position and composition of AC AFAD. In paragraph 6 stipulates that: "other members of the AC AFAD are significant experts from the areas in which the AFAD carries out artistic, educational, scientific, research, development, cultural or other creative activities".

HI5 The level of creative activity in the field of habilitation and inaugural procedures and the level of the university's quality culture.

HI 5.1.1.

AFAD, through teachers and doctoral students, has long been carrying out creative activities in the field of habilitation and inauguration procedures. Many results reach top international level.

Since 2010, we have recorded 178 ascents in the highest category ZZZ in CREUČ, 276 ascents in the categories ZYZ, and 481 ascents in the category ZZY. VŠVU employs an average of 120 pedagogues and there are approximately 30 internal doctoral students. At the same time, CREUČ has 49 categories, several of which have defined international qualities in renowned institutions, but on a smaller scale.

The persons ensuring the habilitation procedure and the inaugural procedure are selected with regard to the criteria of international top quality of their artistic and theoretical activity.

HI 5.2.1.

AFAD has a harmonized study program of Fine Arts (for the fields of visual arts, design, restoration and architecture) in the third degree of study with the standards of SAAVŠ so that it is authorized to create, implement and modify study programs of the third degree.

1. Fine art (internal form)
2. Visual arts (external form)

It also offers two study programs in the field of Science of Art and Culture:

1. History of fine arts and architecture (internal form)
2. History of fine arts and architecture (external form)

AFAD does not apply for accreditation in the field of habilitation procedures and inaugural procedures of the Science of Art and Culture.

HI 5.3.1.

The Academy of Fine Arts undergoes periodic evaluation of creative activity. The focus of creative activity is in the field of art and artistic research, which is fully integrated into study programs at the doctoral level of study. Based on the first evaluation of the periodic evaluation of the research, development, artistic and other creative activities of a public university within the framework of the last comprehensive accreditation of the university's activities carried out according to the regulations effective until October 31, 2018. The results of the evaluation of the level of research activity show that the Academy of Fine Arts in Bratislava fulfills the KZU-1 criterion.

HI 6.2.4.

The applicant for the habilitation procedure must demonstrate professional experience of at least six years, according to Art. 2 on professional practice within the Criteria of the Academy of Fine Arts in Bratislava for evaluating the fulfillment of the conditions for obtaining the art-pedagogical title "docent" in the field of Design habilitation. In Art. 3 summarizes Documentation of artistic creation.

2 Artistic work is primarily documented:

- a) documentation about a work of art or an artistic performance in the form of a so-called portfolio,
- b) curriculum vitae and a detailed list of professional activities,
- c) filled-in quantification criteria indicating the quantification criteria for the Design habilitation department, which forms an appendix to these Criteria,
- d) documenting the quantification criteria through a list of individual items,
- e) by documenting responses to a work of art or an artistic performance, which would prove that the candidate is recognized as an artistic personality in artistic circles,
- f) by submitting monographs, catalogs and responses to artistic activity.

Quantification criteria with measurable indicators in the habilitation field Design is set to comprehensively assess the habilitation's artistic creation. Measurable indicators monitor the habilitation candidate's own creative activity, responses to the work and pedagogical and other professional activities. In particular, the international application of the habilitation is monitored, for which it is assumed that recognition comes after the creation of a complete work of art, which, however, is not closed, but is convincing and authentic. It is supported by reactions.

Character The Department of habilitation Design does not require additional qualification requirements than those listed in the Criteria of the Academy of Fine Arts in Bratislava for evaluating the fulfillment of the conditions for obtaining the art-pedagogical title "docent" in the field of habilitation Design.

HI 6.5.1.

AFAD guarantees that applicants for the title of docent are required to have at least the same level of scope, intensity, quality and recognition of their pedagogical, scientific, artistic and other creative activities as AFAD required from applicants in the previous period.

The change that AFAD implemented when harmonizing the criteria for the habilitation procedure and the inaugural procedure with the SAAVŠ standards was related to the creation of one quantification criteria for all specializations: visual arts, architecture, restoration and design. Measurable indicators have been unified in the quantification requirements and are comparable with other universities of artistic specialization.

HI 7.3.1.

The criteria of the Academy of Fine Arts in Bratislava require the fulfillment of tasks in the field of higher education in the scope, intensity, structure and quality corresponding to international customs. These criteria are designated in detail by Art. 1:

Article 1: Pedagogical practice

1. Content of the applicants' teaching experience:
 - a) the applicant must demonstrate comprehensive and continuous pedagogical work in accordance with § 75 and § 76 of the Act,
 - b) the content of pedagogical practice is leading a studio, a preparatory course or teaching professional subjects in the field of study Art, with a focus on the artistic activity of Visual Arts, Design, Architectural Creation or Restoration, which takes place at the Academy of Fine Arts in Bratislava; the management of a studio, a preparatory course or the teaching of professional subjects of architectural focus at another university can also be recognized as pedagogical practice,
 - c) the applicant lists all pedagogical activities.

2. Range of teaching experience of applicants:

It is required to carry out teaching activities for a period of at least three years after obtaining the title of docent in subjects focused on visual arts, design, architectural creation or restoration, in which the applicant is to be awarded the title of professor. For the performance of teaching activities, only the time during which the applicant was employed by the university, namely for at least half of the established weekly working hours (including abroad), led a professional subject, lectures, seminars or exercises and supervised doctoral students, is taken into account.

3. The applicant must demonstrate the successful training of at least one doctoral student in the given or related field of study and the training of at least one doctoral student after passing the dissertation examination in the given field of study.
4. The applicant must demonstrate the publication of at least one university textbook or two scripts or two teaching texts. A university textbook or script can be replaced by the artistic-pedagogical guidance of an international creative workshop or art symposium.

HI 7.3.2.

The criteria of the Academy of Fine Arts in Bratislava determine the range of professional practice and the documentation of artistic creation, which should demonstrate practice and results in the field of creative activities. This part of the criteria is regulated by Art. 2 and Art. 3:

Article 2: Professional practice

The applicant must demonstrate ten years of professional experience.

Article 3: Documentation of artistic creation

1. The results and outputs of the applicant's artistic work are considered to be decisive, and the status, current at the date of submission of the applicant's application for the inauguration, is evaluated in particular. The results and outputs of the applicant's artistic work must demonstrate that the applicant was influenced by the development of the relevant field of habilitation and inauguration proceedings.
2. Artistic work is primarily documented:
 - a) documentation about a work of art or documentation of a set of realized works of art in the form of a so-called portfolio,
 - b) curriculum vitae and a detailed list of professional activities,
 - c) filled in quantification criteria for the inaugural Design department, which forms an appendix to these Criteria,
 - d) documenting the quantification criteria for the appointment of a professor,

HI 7.5.2.

The criteria for obtaining the title of professor have measurable indicators (quantification criteria) with minimum threshold values. At the same time, they comply with the requirements defined in the HI standard

7.6.1., which do not fall below the level of the previous criteria. At the same time, the measurable indicators are comparable to other universities of art, where habilitation and inauguration procedures are still ongoing.

HI 7.6.1.

The criteria for obtaining the title of professor have measurable indicators (quantification criteria). In previous inaugural proceedings, the quantification criteria were defined according to specialization. As part of the harmonization of habilitation procedures and inauguration procedures according to SAAVŠ standards, one quantification criteria was created, which has a universal character. The lowest threshold measurable indicators derive mainly from those quantification criteria with the specialization that had the lowest number of outputs. Visual art in particular became the determining factor. The key to setting the lowest threshold measurable indicators was the active comparison of measurable indicators among individual universities. In the case of measurable indicators, the criteria of AFAD are comparable to other universities of artistic specialization in the Central European environment.

HI 8 Rules and procedures of the habilitation procedure and the inauguration procedure.

HI 8.1.1.

AFAD has established and publicly accessible rules and procedures for the habilitation procedure and the inauguration procedure. These rules and procedures are governed by two documents:

1. Principles of the Academy of Fine Arts in Bratislava on the procedure for obtaining art-pedagogical titles of docent and professor.
2. Rules of Procedure of the Art Council of the Academy of Fine Arts

HI 8.2.1.

The procedures of the habilitation procedure and the inauguration procedure are primarily governed by the decree on these procedures. AFAD has adopted principles on the procedure for obtaining the

titles of docent and professor. Within these principles, the so-called: The verification commission, which at the beginning of the habilitation procedure and the inaugural procedure, has the task of verifying the formal requirements of the file and at the same time has the right to propose the habilitation or Inaugural Commission and opponents. The verification committee consists of the vice-rector responsible for artistic, scientific and creative activities, another member is the person responsible for the field of habilitation and inauguration procedures and another professor or expert from the given art specialization. The verification committee is an advisory body to the rector at the same time its task is to assess the professionalism of the applicant. Decision-making on the habilitation procedure and the inaugural procedure, its transparency and openness is distributed in responsibility among several entities. The transparency and impartiality of the proceedings can be confirmed by habilitation and inaugural students - at the request of the working group, it is possible to invite one of them to the discussion.

HI 8.2.2.

Plagiarism is somewhat controversial in the field of art. Its determination is based only on the expertise of the verification committee, the habilitation committee, the inaugural committee and the professional competence of the members of the Arts Council of the Academy of Fine Arts. Artistic performance is understood as authentic performance, which cannot be compared with the plagiarism verification process in publishing activity. In most cases, the work of applicants is known and monitored by members of individual commissions and councils for a long time. Based on the review of the habilitation or inauguration file, which in the field of art is a portfolio of work, the authenticity of the applicant's artistic performance will be clearly shown.

Evidence: we are not aware of an example of plagiarism by applicants. In this case, we have no way to present evidence.

HI 8.2.3.

The evaluation of the habilitation file presupposes a thorough study of the applicant's portfolio of artistic work and a thorough checking of the completed quantification activity. A combination of peer review evaluations of the creation itself in combination with measurable indicators guarantee an objective, transparent assessment of the applicant's work. The quantification criteria are harmonized with the evidence of artistic activity of CREUČ, which provides a significant degree of objectification of artistic activity. This is mainly a clearly established categorization of artistic performances. However, the expert assessment of the applicant's work is still present. At the request of the working group, it is possible to invite one of the graduated docents or professors to the discussion.

HI 8.2.4.

Members of the habilitation and inauguration proceedings as well as opponents are proposed to the chairman of the AFAD Arts Council by the verification committee after a formal check of the applicant's file. It is governed by the relevant decree, but also by the selection of such experts who are able to professionally and competently assess the applicant's work. The chairman of the Art Council of AFAD will present the proposal of members and opponents to the discussion of the Art Council of AFAD, which may make changes or clarifications in this proposal. The Art Council of AFAD will determine the exact composition of the members of the habilitation commission and the inaugural commission, as well as the opponents, by means of a vote. At the request of the working group, it is possible to invite one of the graduated docents or professors to the discussion.

Files on habilitation procedures and inauguration procedures will be submitted by AFAD at the request of the SAAVŠ working group.

HI 8.3.1.

During the previous habilitation procedures and inaugural procedures, AFAD complied without exception with generally binding regulations, valid and effective rules and regulations of the habilitation procedure and inaugural procedure.

Evidence:

The SAAVŠ working group will have at its disposal the files of habilitation students and inaugural students for inspection during its visit to the AFAD grounds.
